

## How to create an EU Login account

EU LOGIN (previously called ECAS) stands for European Commission's Authentication Service. It is the common, unique and secure point of authentication to the web applications. User credentials are never divulged to client sites.

An authenticated user is a physical person who has proved her/his entitlement to use a unique identifier by presenting the correct token (e.g. a password, a challenge received by SMS, a challenge generated by a Mobile app, etc.) to the authentication service.

- As a first step, go to EU LOGIN by clicking on: <https://webgate.ec.europa.eu/cas>.
- Click on "Create an account".
