## Vienna Metro plan

## How to get to the Tech Gate Vienna

### Underground – Metro (U-Bahn)

U1 Station Kaisermühlen – Vienna International Center (Exit Schüttaustraße). After exiting you will reach Tech Gate Vienna in less than two minutes' walk.

The subway line U1 connects Tech Gate Vienna with Vienna's historic city center. It is only 8 minutes to Vienna City Center (U1 station Stephansplatz), 12 minutes to Vienna's main railway station (Wien Hauptbahnhof / Südtiroler Platz).

### Bus

The following buses have stations in close proximity to Tech Gate Vienna (at the U1 station Kaisermühlen / VIC):

20B, 90A, 91A, 92A, 

## Coming from Vienna-Schwechat airport by public transport

The airport bus (Vienna Airport Lines) leaves every 60 minutes from 6:00 until 21:00 every day from the airport. Get off the bus at station Kaisermühlen – Vienna International Center.

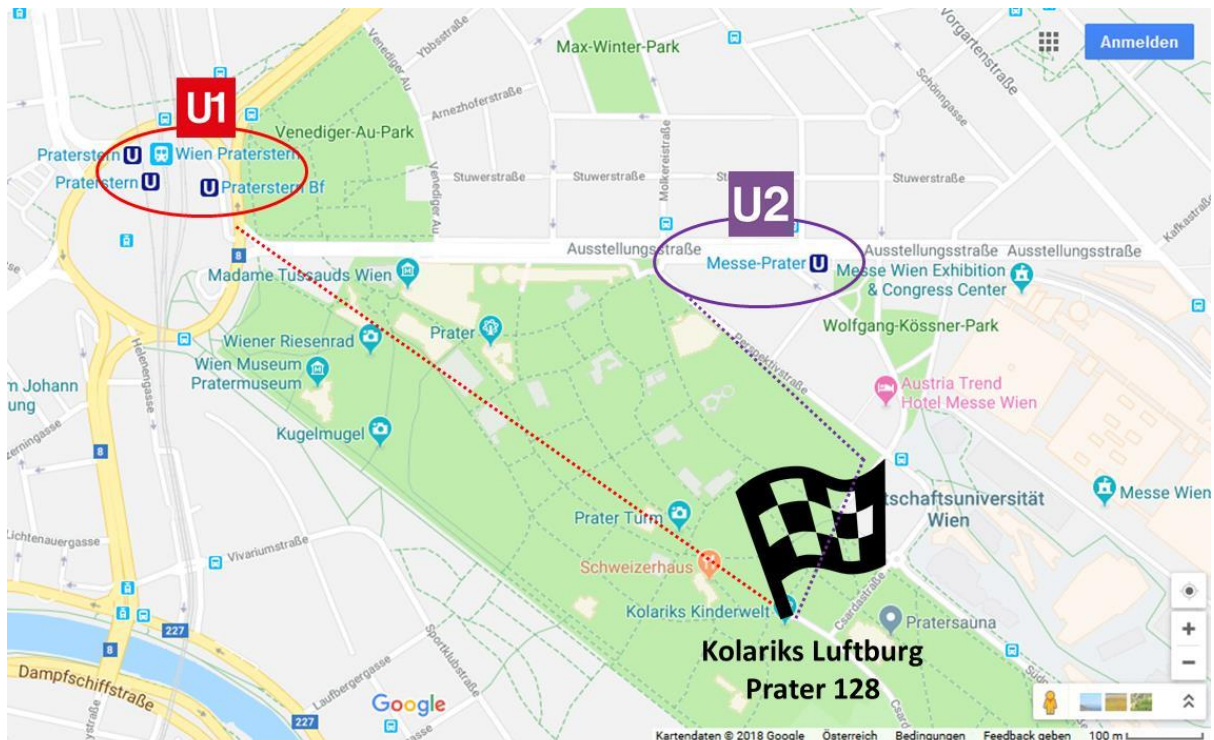

The CAT connects the airport with the City Air Terminal at Landstraße (U3/U4/S-Bahn station Wien Mitte). From here you either need to connect further by S-Bahn (see below) or U4/U1 metro combination. <https://www.cityairporttrain.com/en/home>

The fast train (S-Bahn **S7**) connects the airport very conveniently with the U1 station Praterstern and leaves every 30 minutes, always 18 minutes and 48 minutes after the full hour. At Praterstern simply connect by Metro U1 to Kaisermühlen – Vienna International Center. Check <http://fahrplan.oebb.at/bin/query.exe/en> for more details.

## How to get to the Common Issues Dinner at Kolariks Luftburg

The easiest way is to either take **Metro U1** (exit Praterstern) or **Metro U2** (exit Messe-Prater). After a 10 – 15 minutes' walk through the magnificent Prater you will reach the venue of the Common Issues Dinner – Kolariks Luftburg.

There is also the possibility to call a taxi under 40100, or make use of other taxi services such as Uber or mytaxi. Furthermore there are car sharing operators available such as car2go (<https://www.car2go.com/AT/en/wien/>) or DriveNow (<https://www.drive-now.com/at/en/vienna>).
